**PORTLAND, MAINE 04103**

April 29, 2015

Honorable Mark W. Eves

Speaker of the House

2 State House Station

Augusta, Maine 04333

Dear Speaker Eves:

Pursuant to 20-A M.R.S.A., Chapter 417-A, Section 11427, enclosed is a copy of the Maine Educational Loan Authority's (MELA) annual report for the fiscal year January 1, 2014 through December 31, 2014.

MELA's annual report includes the following sections: introduction and background information; program administration (loan origination and servicing); application volume and distribution; loan volume; borrower distribution; financial counseling and literacy; summary; charts and graphs to illustrate the narrative contained within the report; and basic financial statements with management discussion and analysis.

MELA was established in 1988 to assist Maine students and their families in achieving their higher education goals by providing a

supplemental or alternative student loan program. In 2014, MELA's supplemental student loan program consisted of The Maine Loan<sup>®</sup>, The Maine Medical Loan<sup>sm</sup> and MELA Private Consolidation Loan<sup>sm</sup>. The Maine Loan, MELA's primary student loan product, exists to bridge the gap between the full cost of undergraduate and graduate higher education and other traditional financial aid resources such as scholarships, grants, and the Federal education loan programs. The Maine Medical Loan was created in 1998 to assist Maine students pursuing a Doctor of Medicine (MD) or Doctor of Osteopathic Medicine (DO) degree. MELA expanded the scope of its medical loan program in 2002 to include other degrees such as dentistry, chiropractic, and veterinary medicine. This loan program is available to eligible medical students to borrow funds up to the full cost of a medical degree less other financial aid. The MELA Private Consolidation Loan, which allowed borrowers with qualifying alternative or private education loans to consolidate these loans, was offered through June 30, 2014.

Students attending Maine's public and private institutions of higher education continue to be the greatest beneficiaries of MELA loans. MELA's loan volume in 2014 was \$7,151,316 in originations, which is an increase of 10% when compared with the \$6,474,442 originated in fiscal year 2013. It is expected that there will be a continuing demand for supplemental student loans for a number of reasons, including the impact of the prolonged difficult economic conditions on state funding for higher education, employment opportunities, and individual wealth. In addition, the high cost of attendance at higher education institutions requires increased borrowing by students and their families to cover the gap between the full cost of a college education and traditional financial aid resources.

On July 15, 2014, MELA issued \$10,466,098 (including original issue premium) in tax-exempt student loan revenue bonds. MELA's 2014 bond issue enabled the Authority to offer three fixed interest rates depending on the repayment option selected by the borrower. Two of MELA's fixed interest rates were lower than the William D. Ford Federal Direct PLUS Loan rate of 7.21% for the 2014-2015 academic year. MELA's repayment options and the percentage of borrowers utilizing each option included: immediate repayment of principal and interest (12%), interest only payments (53%), and deferment of principal and interest payments (35%).

Baker Newman and Noyes LLC, an independent certified public accounting firm, recently completed MELA's financial audit for the 2014 fiscal year. In reviewing the financial statements, it is clear that the funds MELA has acquired with proceeds from tax-exempt bonds or obligations are being solely utilized for its alternative student loan program.

In summary, MELA looks forward to continuing to fulfill its mission of providing cost effective supplemental education financing to assist Maine students and families in achieving their higher education goals. MELA considers it to be a privilege to continue to partner with the State of Maine in making a college education more accessible and affordable for its residents.

Your continued interest in and support of MELA is greatly appreciated.

Sincerely,

S/Shirley M. Erickson, Ph.D.

Executive Director

Representative GIDEON of Freeport moved that the House **ACCEPT** the Majority **Ought to Pass as Amended** Report.

Representative **FREDETTE** of Newport **REQUESTED** a roll call on the motion to **ACCEPT** the Majority **Ought to Pass as Amended** Report.

More than one-fifth of the members present expressed a desire for a roll call which was ordered.

The SPEAKER: The Chair recognizes the Representative from Embden, Representative Dunphy.

Representative **DUNPHY**: Thank you, Mr. Speaker. Mr. Speaker, this has turned into a goat roping, and I'm kind of disappointed. We had an agreement that, or at least my understanding was, if we were going to run Representative Fredette's bill and this bill simultaneously, or nearly so, I signed on to both bills. And the reason I signed on to both bills was because I really didn't care how this was corrected, how it was repaired, but it just needed to be repaired.

So, I truly felt that the fix was much more important than the politics, and I still believe that. I was assured that this would not be politicized, I was guaranteed this would not be politicized, and I would suggest that it was not by the bill's sponsor and I respect that and I thank her very much. But it was politicized by a special interest group, and I find that incredibly disturbing.

This bill could've been corrected soon after it happened. It was an easy fix. It was denied because this bill was used as a fundraiser and a recruitment tool by an individual representing the special interest group that absolutely is not accountable to any constituent and it's just, to me it's fundamentally wrong. So, that being said, I gave my word that I would support this bill and I have every intention of doing that. And I'd like to share just a brief lesson that I learned from my dad, and that was the penalty for telling a lie is not being believed when you tell the truth. I think we need to fix this. I'm going to support Representative Gideon's bill because it's the right thing to do, and I would suggest that everyone follow the vote and support Sara's bill as well. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Newport, Representative Fredette.

Representative **FREDETTE**: Thank you, Mr. Speaker, and you know, I want to recognize the good Representative from Saco, Representative Hobbins, who I worked with on this bill in the 126th, when we passed the original Omnibus Energy Bill.

And we worked hard in a very bipartisan fashion to really do two things—one is to recognize the importance of efficiency in Maine and to provide a mechanism for increased funding for Efficiency Maine, and the second part of that bill to bring forward a process whereby Maine could be a leader in New England in terms of trying to bring natural gas, which I see as a lower carbon, lower cost energy source into New England so that we could lower energy costs not only here in Maine, but regionally.

And I'm committed to that. I said that as much as a short time ago that I am committed to that. And I appreciated Representative Dunphy's comments in regards to this because he is exactly correct, that we are committed to doing the right thing. And I think it's important that we have this fix, and I'm asking my caucus also to support and vote in favor of the pending motion. Thank you, Mr. Speaker.

The SPEAKER: A roll call has been ordered. The pending question before the House is Acceptance of the Majority Ought to Pass as Amended Report. All those in favor will vote yes, those opposed will vote no.

The SPEAKER: The Chair recognizes the Representative from Newport, Representative Fredette.

Representative **FREDETTE**: Thank you, Mr. Speaker. Mr. Speaker, Ladies and Gentlemen of the House, my amendment today seeks to mirror the work that I believe is going on in the Energy...

The SPEAKER: Would the member please defer? The member needs to present the House Amendment prior to debate.

Representative **FREDETTE** of Newport **PRESENTED House Amendment "A" (H-114)**, which was **READ** by the Clerk.

The SPEAKER: The Representative may proceed.

Representative **FREDETTE**: Thank you, Mr. Speaker. Mr. Speaker, I apologize. In regards to this amendment, what this amendment seeks to do is sort of what I call a companion bill that's currently in the Energy Committee, and it seeks primarily to do two things.

And one of the things that's important to Republicans, I believe, is accountability in the Efficiency Maine program. The Efficiency Maine Trust, created historically not a very long time ago, started out with a small funding stream. And as a result of

the Omnibus Energy Bill, now could have a budget upwards of \$70 million. And that's a lot of money. It's a lot of money that can be spent without, technically, a lot of legislative oversight. And so, my concern in drafting this amendment which mirrors the bill in the Energy Committee, was to provide for that oversight.

And it primarily does two things which I think is important to energy issues as they relate to issues here in Maine. One is, is it actually moves the current Energy Director, Patrick Woodcock. It changes that position from a Energy Director to an Energy Commissioner. And there would be a \$300,000 funding stream which would come out of the upwards of the \$70 million budget out of Efficiency Maine Trust that would allow for funding of that Commissioner's office along with a Deputy and possibly one or two staff.

I think that's the right thing. I think it's an important thing. I think as energy issues continue to emerge, not only here in Maine, but regionally, we recognize the importance that they had had on, quite frankly, I think in many ways, the reduction of manufacturing here in Maine. When you talk about jobs and in, yes, even union jobs, a lot of those jobs that have gone away over the last 15 years, and we're talking tens of thousands of jobs, a lot of those jobs have gone away because we cannot compete in Maine, or even regionally, in terms of the cost of energy when compared to other parts of the country. So, it's a real issue. And so this amendment has sought to do what my bill has sought to do, which was to elevate the Energy Director to an Energy Commissioner. I think that's an important aspect of this.

The second part of this takes and simply provides some accountability for the Executive Director of the Efficiency Maine Trust to be nominated by the Chief Executive and to be confirmed by the Senate. Again, I don't see that as being an issue of addressing the independence of the Efficiency Maine Trust, or the Chief Executive trying to take control of the Efficiency Maine Trust. I think it's an opportunity for 13 people on the Energy Committee, Republicans and Democrats alike, to vet someone and to then have that recommendation go to the full Senate and say "yea" or "nay" on that recommendation. I, again, think that that is a proper accountability mechanism for a path forward as we continue to look at the work that Efficiency Maine does with possibly a budget of \$70 million.

With that being said, Mr. Speaker, I want to echo the words of the good Representative from Embden in regards to the work that we've already done on this, that we have had conversations and we've had discussions about what is a path forward for getting the things done that we think that need to be done in a bipartisan fashion. And so I agree with the good Representative from Embden that I trust in the integrity of the process. I trust the work of the Energy Committee to take a look at the work that is still to be done down in that committee on this issue and I want to keep my word in terms of the conversations that I had with other people about how I think a proper process, which is a bipartisan process, which is a process with integrity, will continue to go forward. I don't want to play politics with that, and so quite frankly, at this time, Mr. Speaker, I wish to withdraw my amendment. Thank you.

Subsequently, the same Representative **WITHDREW House Amendment "A" (H-114).**
